647-551-7678 | Brampton, Ontario | vanitaperumandla@gmail.com | <https://www.linkedin.com/in/vanita-perumandla75/>

Web Developer | Graphic Designer

PROFESSIONAL SUMMARY

- Creative and detail-oriented Web Developer and Graphic Designer with experience in front-end and full-stack development across banking, retail, and IT industries
- Skilled in building visually appealing, responsive, and user-focused web interfaces using React, JavaScript (ES6), HTML5, CSS3, and Bootstrap. Adept at integrating graphic design principles into modern UI frameworks to enhance user experiences and strengthen brand identity. Excellent communication skills, both verbal and written
- Proficient in UI/UX design, illustration, and digital branding with hands-on experience using Adobe Photoshop, Illustrator, XD, and Figma to create wireframes, prototypes, and marketing visuals. Experienced in developing robust backend services with Node.js and Express, managing databases using MongoDB
- Collaborating effectively in Agile/Scrum environments with strong Git version control practices

WORK EXPERIENCE

Web Developer — Rapid Tech Solution, Toronto Ontario

2024 – 2025

E-Commerce Project: Full-Stack E-commerce Web Application (React, Node.js, REST API, UI/UX Design)

- Designed and developed a full-stack E-commerce web application delivering a visually appealing, responsive, and user-friendly online shopping experience combining technical development with creative design.
- Developed modern **UI using React, HTML5, CSS3**, and JavaScript with a strong focus on accessibility, aesthetics, cross-browser compatibility, and mobile responsiveness across all screen sizes and devices.
- Designed interactive layouts, color palettes, and typography aligned with brand identity using Figma and Adobe XD; created custom icons, banners, and product visuals in **Adobe Photoshop and Illustrator**.
- Built reusable React components for product listings, details pages, cart, and checkout; implemented RESTful APIs for managing products, accounts, orders, and secure transaction data.
- Integrated secure authentication and authorization flows including login, signup, and protected routes; applied React Hooks (use State, use Effect) for efficient state management and modular component design.
- Led UI/UX improvements through iterative user testing and feedback refinement; ensured smooth data flow, proper error handling, and consistent performance across all devices and platforms.
- Followed clean coding practices, maintained code documentation, and applied Agile/Scrum methodology with regular sprint reviews to ensure maintainability, scalability, and on-time delivery.

Technologies: React JS, JavaScript (ES6), HTML5, CSS3, SASS, Responsive Design, Java, Spring Boot, REST APIs, Git, Agile, Python, SQL, WordPress CMS, Graphic Design, Adobe Illustrator, Photoshop, Figma
